

Capture & Contain Tunnel

Catalog # 36840

Aluminum and Stainless steel construction. 4" locking casters.

Guillotine doors are provided on both ends, on both sides and inside the tunnel. All doors have stainless steel latches to lock them in place.

Can pair infinitely with other like tunnels.

The tunnel has multiple uses:

- * Capture and contain animals while their cages are being cleaned.
- * Training
- * Transporting animals to new housing, or to another facility.
