

# Continuous Rack Housing

Complete Stainless Steel Construction  
Continuous Pairing Design.  
Dividers on each side of the cage allowing primate  
numerous cages for more room to maneuver.  
All Stainless Steel Water system.  
Latching Squeeze System  
Cages are 6.2 Ft.2  
Wall Lock System.  
Cantilever Perch & Squeeze Panel  
The cages can be accessed from top to bottom using a  
vertical tunnel.  
Play cages can be used next to them with dividers for  
access.  
Dividers included are solid, visual and contact, making it  
an easy transition for pairing primates.
