

# Single Rack & Cage

## Catalog # 41935

This rugged design is built with quality components and consists of all #304 stainless steel. The rack fits one removable cage and is mounted using hanging bolts. A removable dry waste pan is integrated into the rack with a SS security latch. A plastic floor with 3/8" dia. Perforated holes is also removable. The rack is supported by 4" SS casters with sealed bearings. Cages provide 4.5 sq. ft. of floor area. Squeeze back is guided by a plastic UHMW bearing system for smooth and quiet operation. The squeeze along with a horizontal animal door can be locked in various positions. Other cage features include a 5 bar linear perch, a data card holder, removable feeder, and removable water bottle.
