

Lixit Cover

Catalog # 47805

Custom Drinking Valve Covers:

Custom made to fit existing Cages and Racks

Made with Stainless Steel ½" x 1" Box Tubing.

Cover plate on one end to block access to drinking valve.

Stop plate provided so cover rests on back wall without going through.

Tube is slotted on back side to slide over waterline.

A bolt and wing nut provided to clamp slotted portion of tube to waterline.

All sharp edges removed.

Tool provided to help position cover over drinking valve while it's being bolted on.
