

Bear Training & Transport

Catalog # 39081

The Bear Transport Cage is constructed of stainless steel. There are two guillotine doors on each end of the cage. One side wall is fixed, the other side can be opened horizontally.

Two removable access panels are located in the floor. The animal can extend its paw for care and inspection.

Cage Specs:

Cage Dims: 36" W x 72" L x 48" T
Four Stainless Steel Locking Casters
Heavy Duty Locking Latches
