

# Lab Table

## Catalog # 41090

The lab table was designed to accommodate six work stations including provisions for a light source, microscope post, and storage compartment. Each station also includes post for electrical wires to pass through for protection and safety. Consisting of three sections that bolt together, the "U" shape of the table is conducive with a research environment. Made of all #304 stainless steel tubing, wire, and sheet the lab table is supported by adjustable feet that allow the table to be leveled on any surface.

Overall dimensions: 18" wide x 29" tall

All #304 stainless steel 1-1/2" square tube and 14ga. Sheet

Bead blast to a matte finish optional

Six separate work stations
