

# Polar Bear Paw Cage

## Catalog # 46454

Aluminum Construction.

Designed to be used with existing Polar Bear Training Cage.

Paw Cage to fit where the Head Cage is currently.

Paw Cage will allow Polar Bear to sit in Training Cage and extend paw into cage area.

Paw Cage will be an open box design to allow staff access to Paw(s).

1/8" Aluminum Plate will form Paw Box.

Paw Box is ~3" tall at front and ~15" tall at back x 22" wide x ~19" long.

Rods welded to open face of Paw Box to help contain Bear Paw.

Paw Box will have same channel slide as Head Cage.

All sharp edges removed.

All joints full welded.

Size of Unit and Design can be customized to better suit your needs.
