

Duck Pens

Catalog # 43533

All 304 Stainless Steel construction.
 Each Unit has 8 SF of interior floor space.
 Approximate internal dimensions of the Units are 40" x 28.8".
 Caster Base and Main Frame components constructed of SS 1-1/2' X 1-1/2' Box Tube.
 Unit is supported on SS 5" Casters with Locking Casters on Front of Unit.
 The front of the cage has 1/4" diameter rods on 1" centers including Man Door.
 The Hinged Man Door has a heavy duty latch and provisions for a lock.
 Large Removable SS "J" Feed Box provided. Feed will slope toward animals through Box. Feeder will be as low to the ground as possible ~5" off the ground and have minimal floor footprint to still contain 2 cups of food.
 4 side panels included per pen. Two removable panels per side made of SS 1/4" dia. Rods on 1" centers.
 The center of each pen will have a track for placement of two side panels making it possible to divide it in half.
 Feeders are removable. In the event that a pen is divided in two (to make two 12SF pens) the "J" feeder must be removed to clear the track system and will include a panel that can be placed in its stead when the Side Panels are placed in the center of the pen.
 Waste Deflectors/Splash Guards provided at rear of unit for wash down process.
 Removable waste pan under floor made from 16ga 304 SS
 The # 9 Tenderfoot floor will be in two sections per pen.
 Floors are removable for easy cleaning.
 Pens are Pair able with another like Unit on both sides, with or without the side panels in place. Pairing Mechanism is attached to the top of the Pen.
