

Food Chute

Catalog #49311

304 Stainless Steel materials.

Images shown were designed to fit an existing Cheetah Holding / Food Chute area.

Chute dimensions are approximately 5" wide x 9" long x 24" tall.

Exposed edges are rounded using Stainless Steel rod formed to the approximate size of the Food Chute opening, preventing animal injuries.

As with all of our Products, these Food Chutes will be a rugged design, made with quality components and craftsmanship to stand the test of time.
