

Polar Bear Training Cage

Catalog # 40058

The Polar Bear Training Cage is constructed of Aluminum. On one end of the cage is a guillotine door, on the other end is a tandem door that hinges open. The bottom door has an option for a removable head cage. One side wall is fixed, the other side wall can be opened horizontally and removed.

Lower paw doors and upper shoulder doors are on both sides of the cage. Each door can be opened individually, or all at once if needed. Latches with lock tabs are provided on all doors.

Cage Specifications:
Cage Dims: 51" W x 96" L x 71" T
Four 6" Stainless Steel Locking Casters
Heavy Duty Locking Latches
