

Socialization Rack

6.25 sq. ft.

Catalog # 35649

The Socialization Rack system is constructed of stainless steel. The rack is pairable both vertically and horizontally, and has two 5-bar perches. The squeeze is operated with one pull handle and doubles as a 5-bar perch. Socialization panels are provided on each side for 2 phases of interaction. The cage door is on hinges, and can be fully opened, it contains an integrated guillotine animal door. Metabolic pans can be used on both cages. A wire back is provided for more light and visibility in the cage. A stationary food box is included.
