

River Otter Crate

Catalog # 45575

All aluminum construction makes the crate light and durable for easy transport. Guillotine and horizontal style doors are provided.

- Removable waste pans are accessible from each end of the cage. They are locked in place when the doors are closed.
- A stainless steel water dish is bolted to the inside of the crate. A pipe on the outside is used to fill the dish with water.
- Paw print ventilation openings around entire crate
- This crate can be custom designed to fit your specific needs.
