

# Alcohol Panel Tower with Cassettes

## Catalog # 41924 (Tower) - # 47386 (Cassettes)

Tower 41924:

Stainless Steel Construction.

Designed to fit existing Carter Socialization Racks provided previously.

A 3/8" Dia. Perimeter Rod Frame

Panels have main panel that will have various cutouts for lights, electronics, tethering devices, feed levers and drinking valves for animals to access during study.

The panel will have shelves to hold various pumps, feed hoppers and canisters.

A cover panel will be added to protect all components.

Lexan Panels on the front of cover will allow doors to be slid side to side to access the inside of the Alcohol Panel components.

Door Panels on top of cover will allow access to feed hoppers and canisters, with secure spring-loaded latches.

### **Cassette 47386:**

Stainless Steel Construction.

Designed to fit with existing Carter Socialization Racks provided previously.

Supported on (4) 5" Dia. SS Caster Wheels.

Fits the Version 2 Alcohol Panel Cassette.

Tower has storage for (4) Cassette Panels.

The Cassette Panels will slide in UHMW Plastic Bearing Blocks like the cages have.

Cassettes can slide in/out both sides of Tower.

Tower will align with Carter Socialization Rack Divider area so the transition of the Cassettes from Rack to Tower is smooth and easy.

Has a 1" Dia. Tube Handle that surrounds Tower so it can be accessed from all sides.

Can be customized to best suit your needs after prototype process.
