

Small Animal Room Housing

Catalog # 39364

The Small Animal Room Housing can be used for aviary and small animals.

All aluminum box tube construction. Galvanized welded wire mesh panels 1/2" x 1" x .063, used on the front of the cages.

Solid aluminum divider panels separate the cages.

A man door is included on the front of each cage.

Wall angles for internal shelving or additional caging are included.

Cages are bolted to the walls, and are slightly elevated from the floor for easy cleaning.

All Stainless Steel fasteners, and locking door latches.

Custom sizes are available as shown, made to fit customer's room specifications.
