

# Bio-Containment Chamber

## Catalog # 37301

The Bio Containment module allows the housing of NHP's in a microbiological environment that can operate at a BSL-3 level using facility air handling equipment.

### **Cage Specifications:**

Each cage is 6.0 Ft.2

All Stainless Steel and Lexan Material

Suitable for 250F Autoclave

All doors and openings have mechanical devices for seal compression.

Room air is drawn into the cage through a HEPA filter on the front door.

Tempered glass windows are autoclavable and offer a full view of the inside of the cages.

Cages are removable, each cage has a waste pan.

The HEPA filters on the front and rear of each cage are easily accessible for cleaning purposes.
