

Underwater Guillotine Doors

Catalog # 46895 - 46906 - 46910

Seaboard or Aluminum Construction - perfect for underwater areas.

Designed to be used with existing Penguin Holding Areas.

The Guillotine Doors will be different sizes, custom fit to each area.

Rails to be attached to exhibit walls and allow a guillotine door to slide up/down.

Solid Guillotine Doors at water level will have visual dividers.

Guillotine Doors can be fully removed.

Follow contours of walls and floor to the best of our ability.

All sharp edges removed.

Size of Unit and Design can be customized to fit your specific needs.
